The PAS79 gives guidance and corresponding examples of documentation for undertaking and recording the significant findings of, fire risk assessments in buildings and parts of buildings for which fire risk assessments are required by legislation (more specifically the "Regulatory Reform (Fire Safety) Order 2005" in England and Wales.)

The fire risk assessment process involves:

1. Identify potential risks
2. Identify people at risk
3. Evaluate, remove and reduce potential risks
4. Record findings
5. Annual review and revise (if necessary)
