Guaranteed quality products at competitive prices

We offer the very best in quality safety equipment, certified to British standards and a minimum of 12 months' manufacturer's guarantee.

As well as a complete range of extinguishers, we provide all the accessories, hoses, reels, cabinets and everything you need to be fully compliant with legal and health & safety requirements, all available for immediate delivery.

Free survey

Many customers ask us, "how do I know what fire protection equipment is necessary for my premises?"

We offer a FREE no obligation survey by one of our experienced fire engineers.

Based in Dorset, our knowledgeable office team are experienced and well qualified to deal with any of your queries.

Our engineers are fully qualified and are required to attend refresher courses every 3 years to retain their qualification. Each engineer has undergone a DBS Enhanced Disclosure check, allowing them to attend virtually all types of establishment.

Striving to be the best

We have ISO accreditation, plus we are FSB members and members of two trade associations, The UK Fire Association and The British Fire Consortium, both of which hold regular meetings to discuss technical or trade issues and furthermore we are kept abreast of latest news and developments.

We also keep full records of each customer's fire equipment, updated in real time. Each customer has the possibility to access this information free of charge using their own individual password; this is of particular interest to multi-site customers. After each service the customer receives a feedback form by email; this allows us to measure our performance and to make necessary improvements.

Services and products we offer at Fireline

Portable Fire Extinguisher Servicing

According to British Standards, all extinguishers should be serviced annually. We offer this service at very competitive rates and will inform you when your next service is due. Our experienced and qualified engineers service to the British standard of BS5306-3:2009 and can provide expert advice on all your needs.

Portable Fire Extinguishers

We sell all types of fire extinguishers, all of which come with 1 year manufacturer's guarantee and are all EN3 approved. Available in standard red or chrome. We are also stockists of the luxury Contempo range by Commander, available in stainless steel, brushed antique copper and polished gold.

Fire Alarm & Emergency Lighting

Commercial fire alarms should be serviced at a minimum of every 6 months. Our qualified engineers service to the British standard BS5839, covering Dorset, Hampshire, Wiltshire and Somerset. We also supply and install a wide range of alarm systems, including wireless radiolink and conventional systems.

Services and products we offer at Fireline

Fire Risk Assessments

The Regulatory Reform (Fire Safety) Order places a duty on the 'responsible person' and all business owners to carry out a fire risk assessment (written if you employ 5 or more people). One of our NEBOSH qualified risk assessors will ensure your fire safety meets with the required standard, all of which will be noted and recommendations made in a full report.

Staff Training

Employers must provide their staff with relevant training to give instruction in what to do in the event of fire. We offer this training in the form of a basic fire awareness course (1 hour) and fire warden training (3 hours). Each course has a practical demonstration and you will receive a certificate upon completion. The courses can be run in-house or an alternative venue. Please contact us for course specifications.

Fire and Safety Signs

We supply Jalite AAA photoluminescent signs which require no electrical or battery connection and will illuminate instantly when normal lighting fails. They are designed to conform to the latest International and British standards to meet the requirements of legislation and are engineered for life safety.

Services and products we offer at Fireline

Dry Risers

We install, test and repair this vital part of fire protection equipment. Prone to vandalism, they require an annual service and a 6 monthly vigil check to conform to the current British standard of BS9990:2006.

Accessories

We supply fire blankets, fire point trolleys, stands, plinths and covers all sourced by the best suppliers on the market, and are all competitively priced.

PAT Testing

Our PAT tester will check all portable electrical appliances to ensure they are safe and certified as required by law.

Contempo Fire Extinguisher Range

Fireline are stockists of the luxury Contempo fire extinguisher range by Commander. Perfect for high end establishments, they are available in Brushed Antique Copper, Stainless Steel and Polished Gold and come with matching stands. Each finish is available in foam, water, CO₂, dry powder and wet chemical in varying quantities; call or visit our website for more information.

Advice you can trust

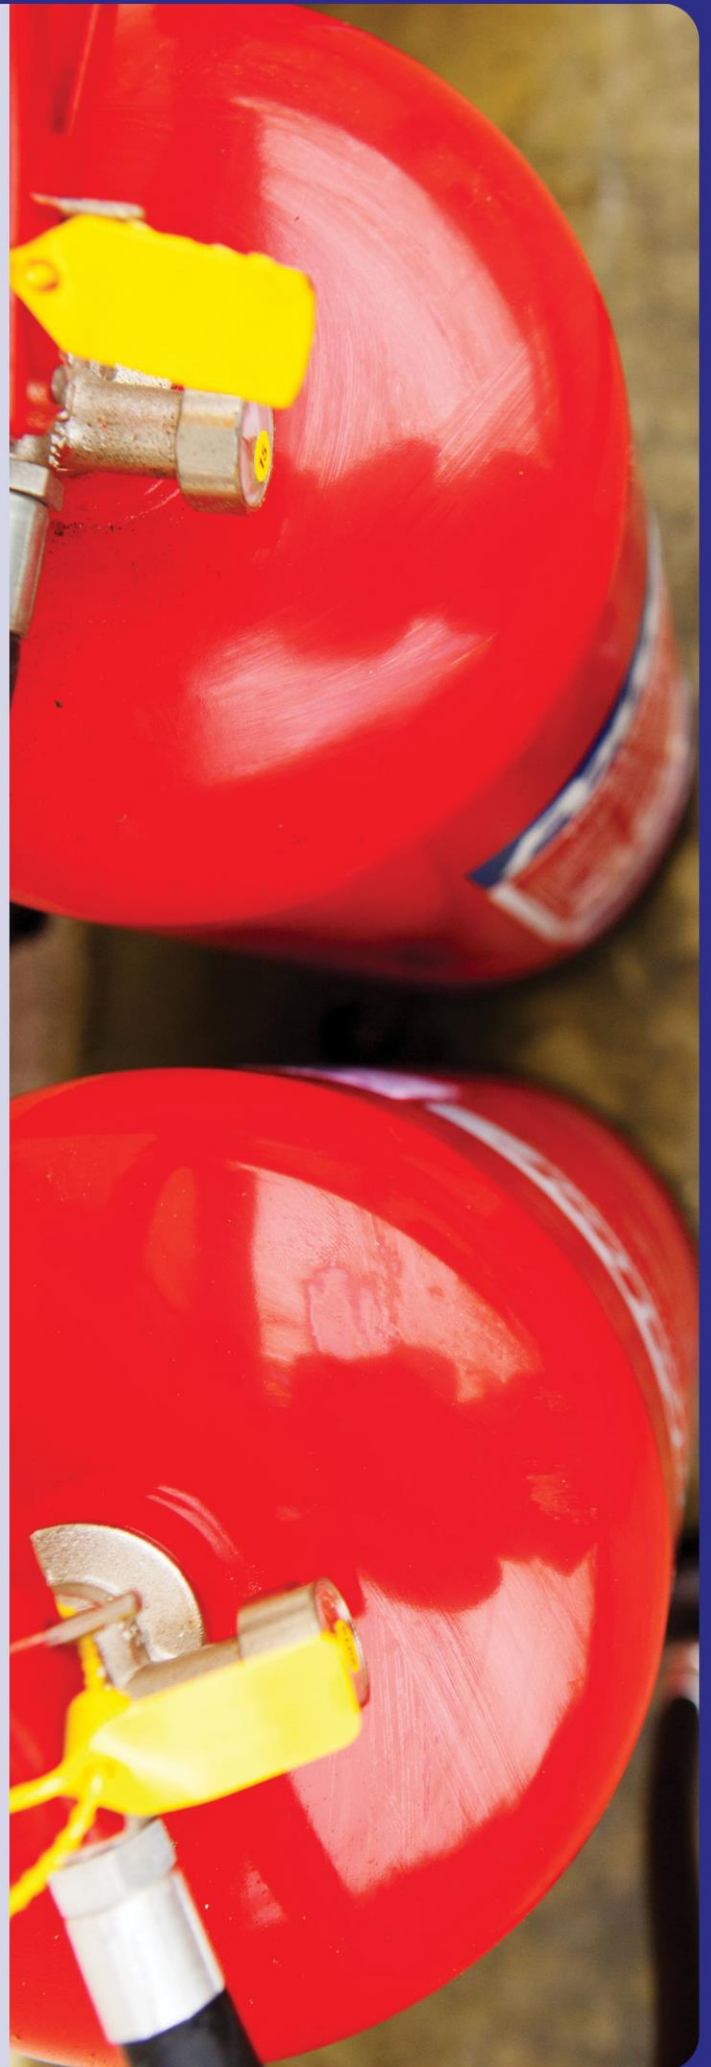

Fireline are members of the British Fire Consortium, the UK Fire Association, Safecontractor and Constructionline, and are BAFE SP101 accredited. We keep abreast of the latest developments, from changes in legislation and servicing procedures to new and better products on the market. By trusting in us we can ensure that you receive the best possible attention and advice.

Personal service and support

Since Fireline was formed in 2000, we have built up a solid and loyal database of customers through hard work and dedication. Our philosophy has been to offer the best possible service, and always at competitive rates. Our very friendly and efficient team can offer great advice and will remind you by post of annual servicing and then contact you by telephone to arrange an appointment.

Fireline has an acknowledged reputation for the quality of the products and service it offers and our aim is to look after and keep our customers. Using the latest technology, every engineer operates with a PDA maintaining customer records up to date in real time and every customer has their own private access to their own records as part of our service.

Based in Dorset with a regional network, our engineers are able to carry out work throughout the UK. We have depots in London, Surrey, Kent, Brighton, Hampshire and Hertfordshire.
